

## H117ACCM

## Stage Extension Wings for Use with ProScan™III H117 Stages

Increase the space available and add versatilty to your inverted ProScan H117 stage by adding the new H117ACCM extension wings. Produced in a breadboard format with 6mm taped holes at 25mm centers, these wings are ideal for mounting equipment such as Prior's micromanipulators by Sensapex without compromising the accuracy of the motorized stage.

H117ACCM Stage Extension Wings shown with mounted micromanipulators
